PROFILE

Senior Undergraduate majoring in Psychology and minoring in Computer Science. I wish to enhance my skills further and pursue an internship, job or masters degree related to Data Science or Psychology.

EDUCATION

Psychology, Virginia Polytechnic Institute and State University, Blacksburg
August 2021 — May 2024
Minor in Computer Science. GPA: 3.0
Data Science and Business Analytics, The University of Texas at Austin, Hybrid
January 2024 — May 2024
Certificate from The University of Texas at Austin for Data Science and Business Analytics course.

INTERNSHIPS

Data Science Intern at ZAD Holding Company, Doha, Qatar
March 2021 — August 2021
•I optimized productivity and reduced workloads by building datasets and databases for ZAD Holding.
•I created advanced data structures through Power BI and through statistical analysis,
•I analyzed the data to provide the most optimal outcomes for the scenarios given for the project.
•I also did a cost-benefit analysis to further optimize the final result.

Data Science Intern at Ooredoo QSC, Doha, Qatar
March 2021 — August 2021
•Worked to assess the company's needs and resolve issues with the use of data.
•Created an optimal plan data plan that was based on the customers usage and needs.
•Optimized plan using Statistical inference and data modeling using PowerBI.
•Created and presented portfolios of growth, pointing out key trends.

EMPLOYMENT HISTORY

Student Manager at Virginia Tech Dining Services, Blacksburg
August 2018 — May 2024
•Directed a diverse team, managing multiple operations.
•I oversee daily operations, ensuring optimal functionality of all aspects of our dining service.
•I am responsible for training, and mentoring staff, providing continuous performance feedback.
•Creating a team-focused environment that encourages top-level service, establishing and maintaining exceptional standards of customer service and also adhere to and enforce all food safety laws and guidelines.
